

ProQuest Registration. Following is a series of screenshots aimed at answering common questions about the ProQuest registration process. The screenshots do not include every step of the registration process, but rather focus on steps that require further explanation or advice. Should you have additional questions after reviewing this handout, please don't hesitate to contact me at erin-kaufman@uiowa.edu.

Because it can take up to 30 minutes, don't wait until the last minute to complete the registration process.

The screenshot displays the ProQuest ETD Administrator website interface. At the top left is the ProQuest ETD Administrator logo. A navigation bar includes links for Home, Training and Support, Resources & Guidelines, Submitting Your Dissertation/Thesis, About ETD Administrator, and Help. The main heading reads "Make your thesis or dissertation available to the research community with ProQuest ETD Administrator". Below this, a section titled "Here's why:" lists three bullet points: "It's easy", "Submissions, revisions, re-submissions, and approvals with your administrator, online", and "Your work deposited, as applicable, into your institution's repository". A second section titled "Here's the workflow:" shows a five-step process: 1. Submit (You), 2. Review (Your institutional administrator), 3. Revise & Approve (You and your administrator), 4. Deliver (Your administrator, to ProQuest), and 5. Done (Your work is now on ProQuest!). A prominent orange button at the bottom center says "Create or continue with submission".

Welcome to the ETD Administrator @ University of Iowa Graduate College

Start the process of publishing to ProQuest Dissertations Publishing by submitting your completed dissertation/thesis using ETD Administrator.

You will be entering information about your dissertation/thesis, uploading a copy of your work, and ordering printed copies (if desired). Your submission will be reviewed.

Note: If you need to finish your submission later (for instance, if you need to update your PDF file before uploading it), **you can save your information and come back later.**

Some items to have on hand:

- **A PDF copy of your dissertation/thesis.** This must be a single file. If your manuscript is in Word or RTF format, we can convert it into a PDF.
- **Abstract**
- **Optional Supplementary files (images, data, etc.)** that are an integral part of the dissertation/thesis, but not part of the full text.
- **Advisor and other Committee Members' Names**
- **Subject Categories - 1 - 3** that best describe your dissertation/thesis' subject area. ([Subject Category list](#))

Embargoes: When submitting your thesis on ProQuest, indicate the length of the embargo (one or two years) and provide the reason for requesting it.

Fees: Copyright (optional) and open access publishing (optional) fees will be charged directly through ProQuest by credit card. The thesis and publication fees will be charged.

Type of Publishing. Following the information on the Instructions tab, ProQuest will present you with publishing options. This includes choosing between Traditional and Open Access Publishing.

All these are made available to the public through The University of Iowa Libraries. Electronic thesis deposits (ETDs) are first submitted to ProQuest for digital archiving and then forwarded to The University of Iowa Libraries, where they are cataloged and made available for public use through Iowa Research Online.

Because your thesis will be made available to the public via the UI Libraries, select Traditional Publishing. There's no need to pay an additional \$95 fee for Open Access Publishing.

Embargo (Delayed Release). If you are preparing a book, research articles, or a patent, you may wish to place your thesis on embargo (delayed release). Talk with your thesis supervisor about whether an embargo is an appropriate choice for your work.

In ProQuest, choose the length of the delayed release—either one or two years—and identify the reason for requesting it.

Once the embargo has expired, ProQuest and the UI Libraries will publish the thesis. It is the responsibility of the student to track this release date for their personal reference.

ProQuest will then ask you to provide the details of your thesis.

Order Copies

Producing copies of your dissertation/thesis is least expensive at the time of publication. Share in these savings by taking advantage of these options:

Order the "milestone edition" copies of your work:

- for hard copy
- for fast copy
- for your own use

Bound Copies. Students do not automatically receive a copy of their thesis, but must instead order one if they wish to have one. Because they take less time to process and are less expensive, the Graduate College recommends ordering bound copies through [Thesis on Demand](#).
