If advisor is not on campus, how do we reach him/her?

I am petitioning the Graduate College to allow post-comprehensive registration for the following session:

Summer 20____

Fall 20____

Spring 20____

This petition is submitted based on the following circumstance(s):

Military service

Medical leave

Maternity leave*

Personal/family leave*

Please provide a brief statement in support of this petition. (Please note that additional documentation may be required by the Graduate College.)

A petition is to be submitted only when extenuating circumstances arise that require a temporary lapse in a student's academic program. Upon receipt of a petition, the Graduate College will consult with the student's advisor prior to making a decision to grant or deny the petition for Ph.D. post-comprehensive registration.

The granting of a petition signifies that the Graduate College will allow a student permission to register for Ph.D. post-comprehensive registration for the period of time as specified on the preceding page. It is to be understood by all parties that during the time period covered by the petition, a student will not make significant use of university resources or engage in significant consultation with the faculty.

Please note that the Ph.D. post-comprehensive registration is **not** to be used for a student's final registration in a doctoral program.

***International students** who petition based on maternity or personal/family leave circumstances are *strongly advised to contact ISSS*. Requests based on either of these categories are not automatically covered under current INS regulations and may result in the loss of student status.
